Personal Page

Instructions

Use Flask API to create a webpage that displays **your own** personal webpage. Give some information about yourself that you'd like to share.

Your webpage must: - Use HTML to format the text. - Link to at least one image. - Include at least two pages. - Have at least two routes, an index route and a second route.

Example

Dwayne Johnson

Bio

Hi, I'm Dwayne Johnson and welcome to my home page! Lots of people call me "The Rock"! I like wrestling and acting in movies.

I was born in Hayward, California and lived in many places while growing up, include New Zealand, Connecticut, and Hawaii. I graduated from Freedom High School in Pennsylvania in 1990, where I played football. I went to college at the University of Miami, where I also played football while working on my Criminology and Physiology majors.

In 1996 started wrestling in the WWF. I eventually became champion in 2000-2002! It was a lot of fun.

These days I mostly act in movies and hang out with my family. I also like working out and playing frisbee.
